

29 December 2007

To Whom It May Concern,

I have known Frank Haney as a quality drum instructor and business owner for over six years. During this time Mr. Haney has shown a level of professionalism and dedication to his career and his clients that is unrivaled by any other musician I have ever met in his field.

Mr. Haney is extremely knowledgeable in his drum instruction. He is able to design individualized lessons for my son which enables him to reach a higher level of playing after each practice and to continue to progress between lessons. Mr. Haney is also highly receptive and adaptable to the changing needs of our son's abilities and treats him with the respect of a professional drummer.

Mr. Haney manages the business portion of our relationship in a highly professional manner. He is very organized and flexible in the scheduling of lessons and takes the time to ask if he can do anything to make my son's lessons more of a success. Mr. Haney's excellent attendance each and every week for the last six years allows me to feel confident in paying for lessons one month in advance.

Mr. Haney's presence in our home each week means that we are visited by a highly intelligent, dependable, and professional musician, instructor, and business owner.

Sincerely,

Linda Veneziano
